

Heliobiology

7 *pp*

I al-ways thought it was the moon that moved wi- thin, a ti- dal force _____

12 *f*

tug- ging a gainst the pulse and flow of lymph, of blood:

16 *mp*

cy- cles of up- well- ing full - ness, eb- bing to de cline. _____ But now

mp

20 *f*

what moves wi-thin is not a ti-dal force. So-lar flows surge through and flare, ran - dom

24 *mp*

vio lent. cy-cles of up-well-ing full - ness, eb-bing to de cline.

28 *f*

Now the sun has claimed me, holds me in thrall.

33

So-lar flows surge through, flare ran-dom and vio lent.

37

cas - cades of plas - mic heat. Mys - tery of cos - mic flux.

40

The sun has claimed me, holds me in thrall.

45

bound me with fire un - til the dark - ness turns.

49

Cas - cades of plas - mic heat, mys - tery of cos - mic flux,

52

tug a-gainst the pulse and flow of lymph, of blood. I am bound with fire un-
